

How do I support the Toledo Institute of Development and Environment by inviting more members to join The Rising TIDE?

You can add the cause to your profile (*see list of actions on right side of home page*)

You can invite your friends to join (*see list of actions and “invite” on the right side of the home page*)

You can “share” the cause with your friends by posting or messaging (*also on the right side of the home page*) and ask your friends to share it with their friends.)

We appreciate every new member and I make an effort to welcome people! Email if you have any questions or comments
